U.S. Court of Federal Claims

Not admitted to practice law in D.C. Attorney is practicing under the supervision of an attorney or attorneys licensed to practice law in D.C.

### Associate\*

Rachael works closely with clients on issues arising throughout the government contracting lifecycle, including contract formation and performance, compliance obligations, and dispute resolution. Her practice includes supporting contractors in navigating regulatory requirements, addressing performance-related challenges, and responding to disputes involving federal agencies. She also represents clients in government contracts and business litigation, bringing a strategic and detail-oriented approach to complex matters.

Rachael is valued by clients for her practical, responsive counsel and her ability to translate complex procurement regulations into clear, actionable guidance. She is committed to helping contractors manage risk, resolve disputes, and remain compliant while pursuing their business objectives in the federal marketplace.

Prior to joining PilieroMazza, Rachael practiced Government Contracts and Civil Litigation at a national law firm, where she represented contractors in procurement-related matters and supported litigation involving federal agencies and private parties. This experience provided her with a strong foundation in federal procurement law and the procedural and strategic considerations that govern disputes in this space.

\*Admitted to Virginia and Tennessee. Not admitted to practice law in D.C. Attorney is practicing under the supervision of an attorney or attorneys licensed to practice law in D.C.
